3. Sew sets of two leaves together at the tips.

4. Line up at your pairs of leaves to get an idea of what order you want them to be placed in.

5. Pile up all your leaf pairs in the order you want to sew them.
6. Sew your leaves pairs together.

7. Lay it out on your table.

## Decorative Napkin Rings

By: [Gloria from The Domestic Diva](#)

There is more to these Decorative Napkin Rings than meets the eye. This DIY fall decoration isn't simply for napkins, but it can be used to hold candles too. We love the way this simple napkin holder transforms into a handy candle votive. The pretty autumn leaves spruce up your everyday napkin holder and make it a decorative table piece. You'll surprise everyone when your napkin holders become part of your table decorations.

### Materials:

- Clay conditioning machine
- Premo clay colors: Ecrú, Olive, Red, Orange, Hazelnut
- Etch n' Pearl tool
- Sculpting tool
- Clay texture sheets
- Diamond glaze
- Paint brush
- Round cookie cutter
- Foil
- Gold metallic enamel paint marker

### Instructions:

1. Condition about 1 ounce of each clay color except the Ecrú. Use more of Ecrú because it's used for the ring and some leaves.

2. Roll the clay with a roller or put it through a pasta machine to create layers of equal thickness, about 1/16-inch. Use a cutter to make the clay sheets the same dimension and stack them.
3. Cut through the stack of clay sheets from top to bottom cutting 1/2-inch wide slices. Roll each slice into a cigar shape on the work surface. Twist and roll again to blend the colors.

4. Use a leaf-shaped mini clay cutter, to cut 4 or 5 leaves in each color blend. Place plastic wrap on the clay before pressing the cutter into the clay. This will give you smooth edges. Use a clay sculpting tool to draw the veins in the leaves.

5. Roll out a strip of Ecrú clay 6 inches long and a little more than 1 inch wide. You will trim it later. This size will fit a 2 inch cookie cutter. Press a design from a texture sheet onto the clay, you may need to remove the texture sheet and place it down again.

6. When the entire strip is textured, cover it with plastic wrap and cut it with a blade to form a 6 x 1 inch strip.

7. Wrap a 2 inch round cookie cutter with aluminum foil. Make it as smooth as possible. Tuck the edges inside.

8. Wrap the clay around the foil. Use a round sculpting tool to blend the two clay ends.

9. Arrange the leaves on the clay ring. Allow them to extend higher than the clay strip on one side of the ring. Curve their tops forward slightly so they don't lie completely flat against the ring and push on the leaf ends with the pearl end of an Etch n' Pearl tool to secure them to the ring. Fill the ring with leaves.

10. Bake the ring in an oven at 275 degrees F for 30 minutes on a foil lined baking pan. Allow to cool completely before handling.

11. Unwrap the foil from the cookie cutter and slide the cutter out of the foil then pull the foil away from the clay.

12. Fill a small container with Diamond Glaze. Using a paint brush, apply the glaze to the leaves and ring. Let it dry for about 2 hours.

13. To finish, apply gold paint to the circles created by the Etch n' Pearl tool using the enamel paint marker.
